

U-Curb Schematics*

Maximum length: 66" or 5.6" (167.64cm)

U-Curb

Technical Specifications

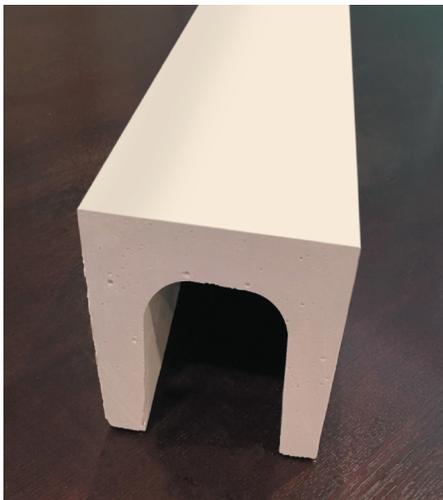

Product Description:

U-Curbs are the perfect replacement for shower thresholds. They can be trimmed in height to accommodate customer preferences as well as to build in 1/4" (0.635cm) slope towards the inside of the shower to allow for water to drain away from the shower door channel. U-Curbs do NOT require support of any kind inside the hollow cavity. **Trim to fit:** We recommend the RIDGID® Fiber Cement Saw with AirGuard™ Technology and dust-free collection system.

Standard U-Curb:

*Recommended for custom shower pans with CENTRALLY located drain.

Our products comply with one or more of the following: IAPMO, ANSI, HUD, NAHB, NHQ

All products made of cultured marble, also known as MasterCast Engineered Composites, Cast Stone, Stone Resin, Resine de Pierre or Marbre de Synthèse (French), Mineral Guss (German), Polybeton (Dutch)
