

ABG HOSPITALITY

GlassShield is a transparent film bonded directly onto hospitality shower doors that improves safety by retaining pieces together in the rare event of glass breakage.

GlassShield Technology

Key Benefits

- High degree of transparency—no altered color perception.
- Provides an added layer of security for your guests and staff.
- Reduce the risk of serious glass-cut injuries, resulting from individuals accidentally coming in contact with a glass door or breaking a door.

How is GlassShield Technology applied?

- GlassShield is factory applied and quality inspected during production.
- Film can be applied on the inside or outside of the shower door.
- GlassShield should not be removed or attempted to be removed.

How durable is it?

- GlassShield has been tested for long-term usage against chemicals and soft abrasives and meets the standard requirements. We recommend referencing the GlassShield maintenance sheet to maximize durability.

How do I clean GlassShield?

- GlassShield can be cleaned with a soft cloth and water or with a squeegee.
- Cleaning products usually used for cleaning shower glass can be used. Cleaning with a damp cloth and using a mixture of vinegar/mild soap with water is recommended. Do not use cleaning products containing abrasive particles nor abrasive tools.
